ADVANCED COMPOSITE TECHNOLOGY

With more than 25 years of experience in composites engineering, plus a long history of rigorous development and testing with professional athletes, Giant is the industry leader in composite bicycle technology. To meet the needs of high-performance riders, Giant offers two grades of composites: Advanced SL and Advanced. Both feature unique materials, resin formulas and construction techniques.

COMPOSITE TECHNOLOGIES

COMPOSITE GRADE	LIGHTWEIGHT CARBON MATERIAL AND RESIN	LIGHTEST WEIGHT CARBON MATERIAL AND RESIN	MODIFIED MONO-COQUE CONSTRUCTION	FUSION PROCESS CONSTRUCTION	CNT RESIN TECHNOLOGY	CONTINUOUS FIBER TECHNOLOGY	GIANT FACTORY BUILT
ADVANCED SL		X		X	X	X	X
ADVANCED	X		X				X

ADVANCED SL COMPOSITE TECHNOLOGY

Professional Grade raw carbon fiber is woven in Giant's own composite factory to produce our lightest, stiffest and highest-quality frames. This is the technology used by Giant's pro racers in almost every cycling discipline. These frames feature the most advanced engineering and construction methods.

1. MATERIALS

Professional Grade raw carbon material for the highest stiffness-to-weight ratio available on the market today.

2. RESIN

Professional Formula resin with Carbon Nanotube Technology (CNT), a microscopic polymer added to Giant's custom blended resin*. Acting like miniature buttresses, CNT particles strengthen the layers of composite. Frames featuring CNT are 14 percent more impact resistant than those without it.

3. CONSTRUCTION TECHNIQUES

FUSION PROCESS: Advanced SL toptubes are "grafted" to the seattube using filament winding and co-molding. This complex process involves hand weaving the toptube and seattube together, and then re-molding the area under heat and high pressure to unify the junction. Fusion produces a lighter, stronger junction than traditional molding.

4. CONTINUOUS FIBER TECHNOLOGY:

This manufacturing process allows Giant to construct the front triangle of Advanced SL frames* with larger, and therefore fewer, sections of composite material. With fewer pieces and junctions, the frames are up to 100 grams lighter and significantly stronger.

*Found on select 2020 framesets.

ADVANCED COMPOSITE TECHNOLOGY

High Performance Grade raw carbon fiber is used to produce custom composite material in Giant's own composite factory. Extremely lightweight, stiff and compliant, these handcrafted frames feature the following materials and processes.

1. MATERIALS

High Performance Grade raw carbon material for a high stiffness-to-weight ratio.

2. RESIN

High Performance Formula resin provides a high level of void minimization (fewer bubbles) while maintaining outstanding strength characteristics. Vibration-absorbing particles are added to help disperse road shock.

3. CONSTRUCTION TECHNIQUES

MODIFIED MONOCOQUE CONSTRUCTION:

The front triangle (downtube, headtube, toptube, seattube) is assembled and molded as one continuous piece. This front half is then joined to the rear chainstays and seatstays in a secondary process. Modified Monocoque eliminates the outermost woven composite sheet to reduce weight without compromising ride quality, strength or stiffness.

GIANT D-FUSE TECHNOLOGY

CONTROLLED COMPLIANCE

Giant first introduced its breakthrough D-Fuse technology in 2014. Initially developed as a seatpost for pro-level cyclocross bikes, it was designed to absorb shocks and vibrations and deliver a smoother ride and more control on variable terrain. The heart of this pioneering concept is its distinctive "D-shaped" tubing with a round front and flattened rear section. Following its success in cyclocross, including multiple world championship titles, D-Fuse was expanded to endurance road bikes and later to the front half of the bicycle. This year many of the performance-oriented Giant and Liv bikes have a D-Fuse seat post and handlebars, including for example the Avail and Defy endurance racing bikes, as well as x-road bikes such as the TCX and Revolt.

HIGHLIGHTS

1. D-FUSE SEATPOST

The D-Fuse seatpost features a D-shaped composite shaft that absorbs road shocks and vibration. With up to 12mm of flex, this engineered compliance produces a smooth ride quality to help minimize fatigue.

2. D-SHAPED COMPOSITE TUBING

D-Fuse handlebars are made with D-shaped tubing that's similar to the design of the D-Fuse seatpost.

3. LIGHTER

Contact SLR D-Fuse handlebars (featured on some Defy models) are 6% lighter than Contact SLR round handlebars. Contact XR D-Fuse handlebar (featured on Revolt models) are 5% lighter than the Contact SL round bars.

4. COMPLIANCE

10% more "pushing" (downward) compliance compared to round shaped Contact handlebars for a smoother ride quality.

5. EFFICIENCY

Up to 30% more "pulling" (upward) stiffness compared to the round shaped Contact handlebar for cornering, sprinting and climbing efficiency.

ALUXX ALUMINIUM TECHNOLOGY

For more than three decades, Giant has been the industry leader in aluminum engineering and innovation. Giant was the first to mass-produce lightweight aluminum bikes and has continually improved its capabilities to give riders the ultimate cycling experience with aluminum technology. Today, our ALUXX Aluminum Technology sets the standard. A heritage of craftsmanship, combined with unrivaled manufacturing capabilities, gives Giant the unique ability to control every step of the aluminum production process. From manipulating atomic structures to progressive shaping and welding techniques – we constantly strive to make our bikes lighter, stronger and more rigid. The difference can be felt in the ride. Every aluminum bike bearing the ALUXX Aluminum Technology label must live up to the highest standards and meet the tightest tolerances of any aluminum frame in the world

THREE GRADES OF ALUXX

PRO LEVEL

MATERIALS

- 6011 alloy for highest strength-to-weight ratio.

FORMING METHODS

- State-of-the-art microscopic grain manipulation results in the greatest strength-to-weight ratio aluminum that Giant produces.
- Advanced butting process allows for 20 percent thinner (and lighter) tubes than ALUXX SL.
- Aluminum tubes are shaped and manipulated with Giant's proprietary FluidForm process, which uses an injection of high-pressure fluid, and also PressForm, a process of direct mechanical pressure

WELDING TECHNIQUES

- Features Smooth Weld (double-pass technique plus hand-sanding to reduce stress risers) and Slim Weld (custom fit tube junctures to minimize gaps so less weld material is used). The result is minimal weight, maximum strength and the cleanest aesthetics.

HIGH PERFORMANCE LEVEL

MATERIALS

- Predominantly 6011 alloy for high performance strength-to-weight ratio.

FORMING METHODS

- Double butting results in lighter weight without sacrificing strength.
- Features PressForm, a process of direct mechanical pressure, WarmForm, which uses an injection of high-pressure air, and FluidForm in select models, to shape and manipulate aluminum tubes.

WELDING TECHNIQUES

- Features both Standard Weld (doublepass technique without sanding/filing) and Smooth Weld for outstanding strength and weight.

PERFORMANCE LEVEL

MATERIALS

- 6061 alloy for optimized strength-to-weight ratios.

FORMING METHODS

- Single butting results in lightweight frames without sacrificing strength.
- Predominantly features PressForm, a process of direct mechanical pressure, to shape and manipulate aluminum tubes.

WELDING TECHNIQUES

- Features Standard Weld for optimized strength and weight, plus some Smooth Weld sections.

MAESTRO SUSPENSION TECHNOLOGY

No matter your choice of trail, Giant's Maestro Suspension helps you make the most of your efforts. Control, traction, comfort, speed — Maestro offers all levels of riders the benefits of pure suspension performance. From fast and efficient XC bikes to long-travel downhill machines, Maestro is an adaptable full-suspension platform that offers smooth, active rear suspension for any type of trail and all kinds of terrain.

THREE KEY BENEFITS:

PEDALING EFFICIENCY

Whether you're sprinting up a climb or hammering through a rock garden, Maestro Suspension performs consistently under pedaling power and doesn't compromise efficiency.

COMPLETE SUSPENSION ACTIVITY

From high-frequency trail vibrations to big-hit compressions, Maestro Suspension soaks up the full spectrum of trail impacts.

TOTAL BRAKE INDEPENDENCE

Even under full-braking force, Maestro Suspension stays active and gives you better control.

HOW IT WORKS

1. GROUND CONTROL

FEATURE: Maestro's near vertical wheel path and linear spring curve allow the rear suspension to remain incredibly sensitive to both small and big impacts—without "packing up" under rapid, successive hits or bottoming out under big hits.

BENEFIT: The better the contact with the ground, the more control you have. And the more sensitive your suspension is, the better your acceleration, braking and cornering traction.

2. FOUR, TWO, ONE

FEATURE: Maestro utilizes four strategically positioned pivot points (the four red dots) and two linkages that all work to create a single floating pivot point (the red circle).

BENEFIT: The floating pivot point increases pedaling efficiency by counteracting the pedal forces that would normally lead to suspension compression (squatting) or pedal kickback (bobbing). These negative factors would normally consume energy, reducing your and your bike's performance.

3. FULLY CONNECTED

FEATURE: The Maestro suspension's upper rocker arm features a trunnion mount damper that gives a lower leverage ratio, increasing pedaling and braking efficiency. This also permits shorter chainstays, improving climbing capability and maneuverability.

BENEFIT: Better pedaling and braking, plus optimum geometry for all Maestro-equipped off-road bikes.

TRUNNION MOUNT

Found on the 2020 Anthem, Trance and Reign off-road bikes, this new shock mount design further improves the performance of Maestro Suspension. Working with our key suspension suppliers, we created the new mount to produce the following three core benefits for riders:

4. FEATURE: Lower leverage ratio
BENEFIT: Improves both pedaling and braking efficiency of Maestro Suspension.

5. FEATURE: Centralized suspension mass
BENEFIT: Lower center of gravity improves bike's overall handling.

6. FEATURE: Shorter rear end (chainstays)
BENEFIT: Shorter chainstays improve climbing capabilities and overall agility.

FLEXPOINT SUSPENSION TECHNOLOGY

FLEXPOINT
Suspension System

SUSPENSION PERFORMANCE MADE SIMPLE

Using the flexing elements of the rear chainstay and seatstay, FlexPoint Suspension eliminates complex pivots and linkages to provide an effective, lightweight and durable suspension system that's easy to maintain.

Key advantages include:

EFFECTIVE PERFORMANCE

The proven "single-pivot" suspension design offers trail riders increased control for more confident off-road riding.

LIGHT AND DURABLE

The flexing action of the chainstay/seatstay junction creates a simple, lightweight and durable system that provides 120mm of rear wheel travel.

EASY MAINTENANCE

FlexPoint offers similar benefits as multi-link suspension systems but without the added costs or the need for frequent maintenance.

HOW IT WORKS

- 1. NO MECHANICAL REAR PIVOT POINT**
The flexing action of the chainstay/ seatstay junction creates 120mm of rear wheel travel.
- 2. PROVEN "SINGLE PIVOT" SUSPENSION PERFORMANCE**
FlexPoint's single pivot suspension design delivers effective performance for light-to-medium trail riding capabilities.
- 3. ALUXX ALUMINUM SWINGARM**
Giant proprietary swingarm design provides the flexing elements of FlexPoint suspension for durable and effective performance

POWER PRO

The Power Pro is a fully integrated, dual-sided power meter that precisely measures power output to help you track, analyze and improve your performance on the bike. Its battery lasts up to 100 hours on a single charge, and through the Giant RideLink app, it can be updated and calibrated quickly and easily before each ride.

MULTI-AXIS SENSOR

An easily set-up and precise magnet-free accelerometer detects and collects multiple cadence data points throughout the pedal stroke to calculate pedaling angle and exact force position.

ARM CORTEX M4 MICROPROCESSORS

M4 microprocessors instantly calculate power data with minimum energy consumption. This helps preserve battery life longer than most competitors' microprocessors, and is the reason that the Power Pro can last up to 100 hours on a single charge.

LONG-LASTING BATTERY

The high-capacity lithium battery delivers up to 100 hours of riding on a single charge.

DURABLE CASING

IPX7 waterproof, anti-dust casing with a closed magnetic rechargeable design protects the PowerPro from water or dust while riding.

DO MORE WITH THE RIDELINK APP

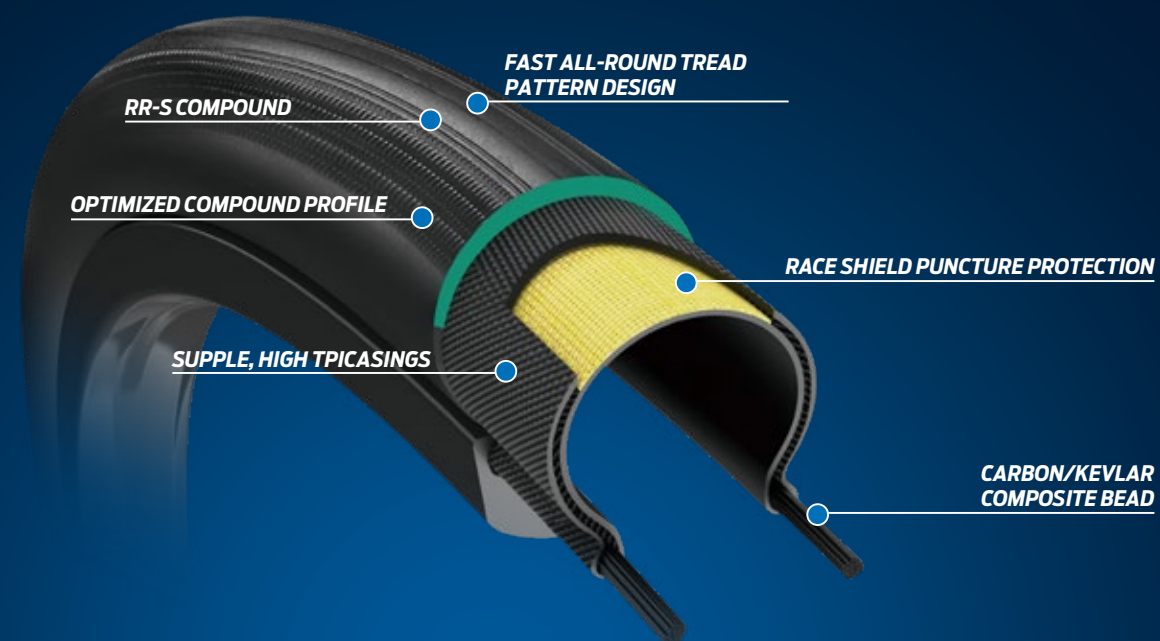

Check battery level, update firmware and calibrate the Power Pro meter quickly and easily with Giant RideLink smartphone app. The app is available on Google Play for Android devices and the Apple App store for iOS devices.

GIANT-EXCLUSIVE ALGORITHM

A proprietary algorithm eliminates environmental variables that can negatively affect data. Developed through data acquisition with professional and amateur racers in real world riding conditions, this algorithm compensates for both weather variances as well as competing digital noise from nearby devices that can cause inaccurate or inconsistent data.

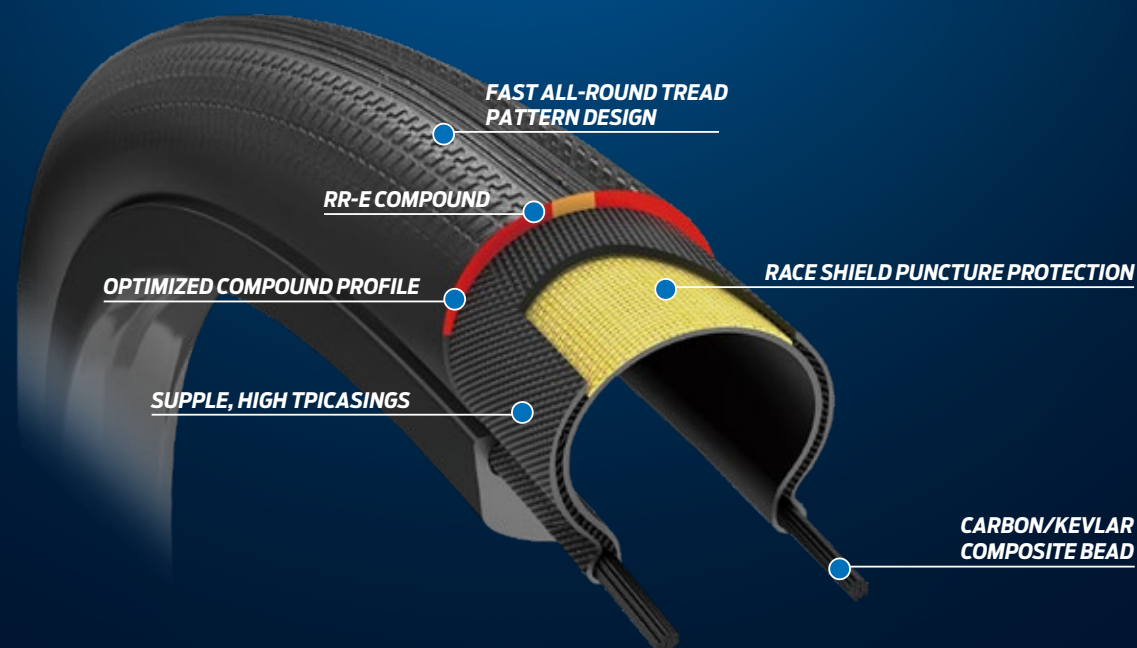

GAVIA COURSE

UNLIMITED SPEED

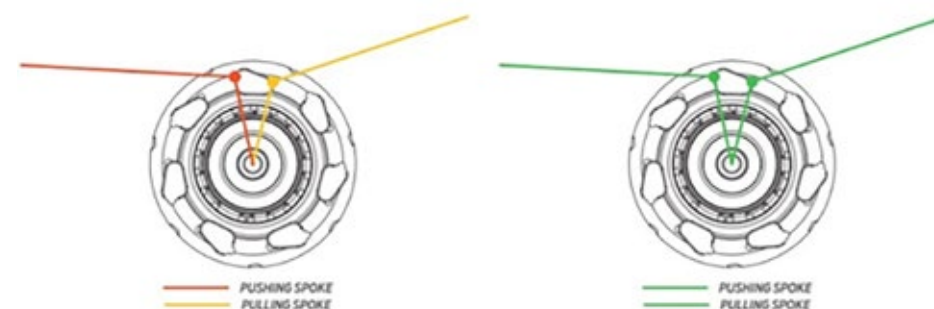

GAVIA FONDO

A TIRE FOR ALL SEASONS

DYNAMIC BALANCED LACING

Wheels are usually built from a static state – when they've stopped. This is despite optimal function being required when they are moving – in a dynamic state – and this is the key to Dynamic Balanced Lacing design.

STATIC STATE

DYNAMIC STATE

DURABILITY

When the wheels are stationary, the opposing pulling and pushing spokes have different spoke tension. This makes a wheel last longer.

EFFICIENCY

When a wheel starts to move, the tension between pulling and pushing spokes balances out, optimizing spoke tension. This makes the wheel stiffer, so that your pedaling power is transmitted as efficiently as possible.

GIANT EASYRIDE TUBELESS

Riding for fitness, going on weekend adventures or simply cruising around the neighborhood, Giant's EasyRide Tubeless (ERT) lets you enjoy your rides without the fear of punctures and flats. A unique integrated airtight ERT liner and valve create an air chamber that functions like a tube and is compatible with virtually all standard rims. Embrace the benefits of a tubeless tire: more safety, more comfort and more control, but with much less hassle!

EASY CONFIDENCE

EASY UPGRADE

EASY SETUP

KEY TECHNOLOGIES

INTEGRATED AIRTIGHT ERT LINER

Replacing the concept of standard inner tubes, the Integrated ERT Liner is built into the tire casing to create a tough, easy-to-use tire that provides the key benefits of safety, comfort and control.

INTEGRATED ERT VALVE

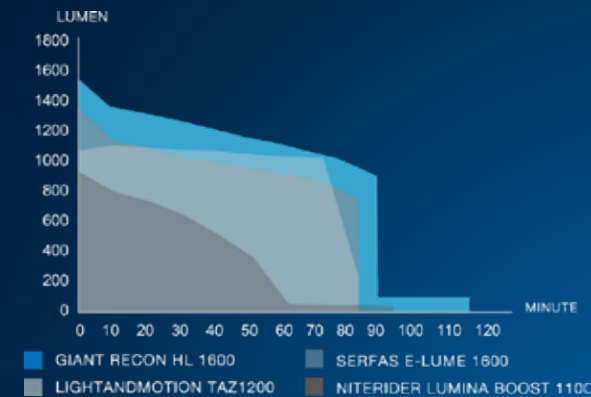

Giant EasyRide Tubeless tires feature an integrated valve that makes the tire setup process easier and reduces the risk of sudden air leaks due to incorrect installation.

ERT AIR CHAMBER

Pumping up a tubeless tire can be tricky. That's why Giant designed the Integrated ERT Liner to create a large protected Air Chamber that makes it easier to inflate the tire. Adding Giant Tubeless sealant into the tire helps to fill punctures quickly—enjoy the ride without the worry.

RECON LIGHTS

Shines brighter, lasts longer. ANSI standard approved, Giant's Electronic Control Design (ECD) generates a constant electric current throughout the complete runtime cycle; this helps to maintain a more stable and longer high-lumen output versus competitors' lights.

SMARTER VISION

Pair Recon with a Giant RideSense or other ANT+ compatible computer to see battery information on the screen and activate the SpeedBeam function, which automatically adjusts lumen output based on your speed—ride faster and the light gets brighter*. The Recon series also monitors ambient light sources and changes output usage, ensuring you have enough light to finish your ride; day or night**.

*Recon HL1600/900 only. For the best results, pair your Recon Light SpeedBeam mode through Giant RideSense (or another speed sensor) and not a GPS.

**Recon HL1600/900/700/200; Recon TL200 only.

SPEEDBEAM FUNCTION :

Riding at speeds above 25km/hr, the light beam output is 100%.

Riding at speeds below 25km/hr, the light beam decreases to 70%.

SMART MODE FUNCTION:

Day mode: when the ambient light sensor senses daylight, the Recon lights will switch to flash mode to ensure other vehicles can see you.

Night mode: while riding in the dark or at night, the Recon light will switch to a steady output and the tail light will change to steady/flash mode to let vehicles behind you know exactly where you are.

UNIVERSAL MOUNTING SYSTEM

Whether you prefer to mount your light with your computer, on the saddle, directly on your helmet or via an adjustable GoPro mount, the Recon Complete Mount Solution can do it all. Additionally, our redesigned rail mounting system provides a stronger, more secure solution to keep the light centered and stable, even when riding on rough roads or trails.

SADDLE RAILS MOUNT

GO PRO MOUNT

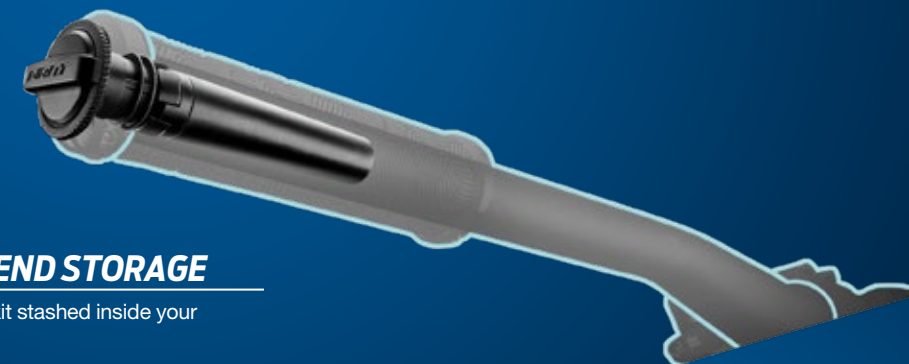

HELMET MOUNT

RUBBER STRAP MOUNT

CLUTCH TOOLS

Fully integrated with your bike's components, Clutch tools are easy to access the moment you need them but just about invisible when you don't.

CLUTCH BAR END STORAGE

A tubeless tire repair kit stashed inside your handle bar

Includes:

- A tire plug tool
- 10 spare tire plugs

Compatible with all common MTB handlebars

CLUTCH FORK STORAGE

An integrated CO2 inflation kit hidden in your fork steerer tube

Includes:

- A 16g or 25g CO2 Cartridge
- A CO2 inflator

Compatible with all RockShox, Fox and DVO suspension forks

CLUTCH CRANK STORAGE

An invisible multi tool slides right into your crank spindle

Includes:

- A 2.5,3,4,5,6mm hex and T25 Torx
- Spare chain links
- Spoke wrench

Compatible with SRAM, Shimano, and Praxis cranks

CONTROL TOWER BOOST

Seating and inflating a tubeless tire without an air compressor can be next to impossible. With the all-new Giant Control Tower Boost, featuring a fully integrated 200psi tubeless inflator chamber alongside the standard inflation chamber, you can get the air you need to seat and inflate any tubeless tire on any wheel.

TECHNOLOGY HIGHLIGHTS

1. INNOVATIVE DOUBLE SHOT INFLATOR DESIGN

The Control Tower Boost combines its tubeless inflation chamber with its standard pump chamber into one compact and functional design.

2. 200PSI MAX PRESSURE

Fill the chamber to 200psi, release the valve, and get just the right boost you need to seat your tubeless tire. With the valve in the same position, keep pumping like a standard floor pump to fully inflate the tire.

3. AUTOHEAD™ DESIGN

Presta or Schrader, the AutoHead™ pump head will work, every time.

4. 3.5" OVERSIZED GAUGE

An easy-to-read industrial grade 3.5" oversized gauge ensures a precise reading.

5. AIR-RELEASE BUTTON

An accessible air-release button makes sure you nail your exact tire pressure.

6. STEEL BASE/ALUMINUM BARREL STRUCTURE

An all-new solid-steel triangle base design provides stability while as the aluminum barrel offers smooth, efficient, durable performance.

NEOSTRACK

With integrated FTP/LTHR test protocols, Auto-Sync capabilities and even turn-by-turn route guidance, the NeosTrack is your pocket-sized training partner. What's more, NeosTrack boasts a battery life of up to 30 hours on a single charge, and features Bluetooth, as well as ANT+ technology, making it compatible with practically every power meter and training device on the market.

TECHNOLOGY HIGHLIGHTS

1. CONNECTIVITY

A high-sensitivity GPS receiver locates satellites quickly while ANT+, Bluetooth 4.0 and WLAN allow NeosTrack to connect to sensors and sync with smartphones or networks for quick uploads and firmware and GPS updates.

2. ENDLESS POWER

Up to 30 hours on a single charge—one of the best in the market, with IPX7 waterproof protection and backlight feature, NeosTrack helps guide your training even in the most adverse weather conditions.

3. DI2 COMPATIBILITY

Connect to Dura-Ace and Ultegra Di2 systems for real-time on-screen gear ratios and combinations, along with Di2 battery levels. What's more, you can scroll through screens using Di2 shifter hood buttons.

4. POWER DATA

Combine NeosTrack with popular ANT+ power meters to take your training to the next level. NeosTrack displays up to 10 valuable training power data points, including left and right pedal balance as well as stroke efficiency.

5. TRAINSMART

TrainSmart uses pre-programmed workouts to test and track your physical conditions and create customized intervals and workouts based on your desired fitness results.

6. FOLLOW ROUTE

Create a new route from previous rides or upload .gpx files directly to NeosTrack using the NeosTrack app, NeosTrack website or other popular mapping programs or sites.

7. TURN-BY-TURN

NeosTrack provides turn-by-turn directions, allowing you to focus on the ride without worrying about where to go.

8. ROUTE DETAILS

NeosTrack displays all ride data including ride time, route distance, average speed and elevation gain.

NEOS GPS

Featuring a compact design and offering just the right amount of reliable riding information, the Neos GPS computer is ready to go when you are, with no set-up hassles: Just mount the device on the handlebar, turn it on, and go! It's the ideal computer for entry-level riders or those who believe a simple solution is always best.

TECHNOLOGY HIGHLIGHTS

1. INTUITIVE UI DESIGN

Neos GPS provides essential ride data via a 2.0" LCD display and three simple, easy-to-use indicators.

2. DURABLE PERFORMANCE

With up to 16 hours battery time, the Neos GPS is also IPX7 waterproof certified, ensuring you can use it in all weather conditions.

3. SMART NOTIFICATION

Connect your phone through the NeosTrack app and you can see incoming call, email or text notifications on the screen during your ride.

4. PAGE CUSTOMIZATION

Sync the device to your phone via the NeosTrack app and quickly and easily adjust the page information layout to your liking.

5. SYNC AND SHARE

No more file conversion hassles! By connecting your Neos GPS with the NeosTrack app, you can automatically upload and share your ride data to STRAVA™ and TrainingPeaks™.

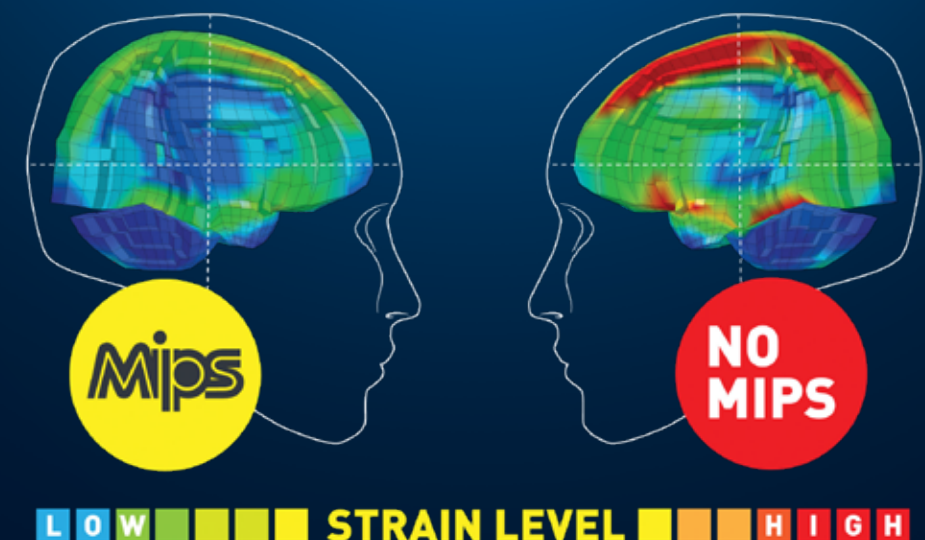

MIPS

In a helmet with MIPS Brain Protection System (BPS) the shell and the liner are separated by a Low Friction Layer. When a helmet with MIPS Brain Protection System is subjected to an angled impact, the low friction layer allows the helmet to slide relative to the head. MIPS BPS is designed to add protection in helmets against rotational motion, a combination of rotational energy (angular velocity) and rotational forces (from angular acceleration) that significantly increases the risk for brain injuries. MIPS BPS has been scientifically proven to reduce rotational motion when implemented in a helmet by absorbing and redirecting rotational energies and forces transferred to the brain.

STRAIN IN THE BRAIN

The illustration is based on data that was generated using a finite element computer model, based on measurements obtained from nine accelerometers in a Hybrid III crash test dummy head. The dummy head wearing a helmet was subjected to an angled impact using the MIPS test rig. The model illustrates strain in the brain from a similar angled impact when the dummy head is wearing a helmet without MIPS and a helmet with MIPS.

CHARGE PRO

Maximize your efforts as you drop the hammer. Power up the steepest, most technical climbs. Maintain stability and control as you unclip to cross a sketchy obstacle. Featuring a rubber-protected, 100% carbon, dual ExoBeam outsole combined with an all-new internal ExoWrap with dedicated BOA, the Charge Pro delivers the pinnacle of lightweight XC, CX and gravel performance.

TECHNOLOGY HIGHLIGHTS

1. MOLDED TOE GUARD WITH DOUBLE SECURE CLEAT INSERTS

A sleek and robust molded TPU toe guard gives full protection to the forefoot and features removable double secure cleat inserts for added traction off-bike.

2. MOTION EFFICIENCY SYSTEM

Motion Efficiency System combines a stiff and efficient pedaling platform with just enough torsional flex to reduce pressure and strain in the lower leg. The result is a more natural foot movement during the pedal stroke to optimize comfort, power transfer and efficiency.

3. DUAL DESIGN EXOBEAM WITH FULL RUBBER OUTSOLE

The Charge Pro's freshly redesigned 100% long-fiber carbon ExoBeam plate is ultra-light and ultra-stiff and features a full rubber covered dual beam design, offering secure mid-foot contact on the pedal while un-clipped, without sacrificing torsional flexibility, stiffness, or power transfer.

4. PERFORMANCE LAST

Exclusive to Giant, Slip-Last construction merges with our MES 2.0 performance last to offer ultimate comfort by allowing the forefoot to be stiff while enabling torsional rotation of the rear and mid foot.

5. MICROFIBER UPPER WITH LASER PERFORATION

Reinforced high-density, water resistant PU upper with laser cut micro-perforations combines optimal support with extremely low weight while providing optimal ventilation and promoting a balanced foot climate.

6. INTERNAL EXOWRAP WITH DEDICATED BOA REEL

Giant's all-new, fully internal ExoWrap with dedicated BOA LP1 reel works in harmony with the dual design ExoBeam to produce a unique 360-degree foot enclosure for customizable arch fit and support.

7. TRANSTEXTURA PLUS™ CUSTOMIZABLE SOCKLINER

Removable sock liner with tunable arch support and TransTextura Plus™ antimicrobial layer helps promote a balanced foot climate.

8. SECURE FIT HEEL

The unique "shark skin" heel cup is ergonomically designed to follow the natural shape of a rider's foot and provide a positive no-slip fit that guarantees ultimate performance.

APPAREL TECHNOLOGY

Whether you're sprinting, climbing and descending on the road, commuting home in the dark or smashing through some technical singletrack in the rain, Giant apparel is purpose-built for all riders in all conditions. Boosting performance by helping to regulate body temperature and keep the elements out, Giant fabric technology helps you stay dry and comfortable in even the most changeable weather.

TRANSTEXTURA™

Permanent denier gradient transfer technology uses capillary action to pull moisture away from the skin to the fabric surface for rapid evaporation and quick drying.

- Heat Ventilation
- Moisture Transfer
- Highly Breathable
- Highly Stretchable
- Perspiration Capillary Action

TRANSTEXTURA PLUS™

All of the benefits of TransTextura™ with the addition of anti-microbial functionality to help neutralize bacteria that causes odors.

- Anti-microbial
- Anti-odor

THERMTEXTURA™

ThermTextura™ fabric incorporates all the benefits of TransTextura™ fabric by transferring body moisture from inside while insulating you from the cold air outside.

- Moisture Transfer
- Heat Retention
- Air Insulation

PROTEXTURA™

Wind protection, durable water-repellent finishes and laminations are engineered to fend off windy and rainy conditions, while remaining breathable to assist your body in regulation of body temperature.

- Water-resistant

PROTEXTURA PLUS™

Enhanced performance benefits from the addition of dependable weather-protective sealed seams provide a true waterproof construction.

- Waterproof

PROPEL ADVANCED SL 0 DISC

Launch your attack. Sprint for the win. This composite aero rocketship combines AeroSystem Shaping Technology with the all-new SRAM RED eTap AXS wireless electronic groupset. The result: efficiency, control, and race-winning speed.

INTEGRATED AERODYNAMICS:
AeroSystem Shaping, a result of CFD analysis and wind-tunnel testing, optimizes aerodynamic performance at every yaw angle. The truncated ellipse airfoil tube shapes and Contact SLR Aero cockpit help produce the best overall aero performance.

TOTAL CONTROL:
Integrated disc brakes deliver powerful stopping power and modulation for added control in variable weather. Thru-axles boost stiffness and improve overall handling, and an integrated WheelSystem with a 65mm rear rim and 42mm front rim optimizes aerodynamics and control.

CUTTING-EDGE COMPONENTS:
SRAM RED eTap AXS drivetrain includes an integrated Quarq DZero power meter to provide precise training and racing power data. The 12-speed wireless electronic shifting system features new derailleur technologies and simple, intuitive shifter/brake levers.

TRANCE ADVANCED PRO 29 0

Amp up your trail riding adventures with this all-conquering 29er. Whether you're gunning for faster enduro times or bagging a big backcountry loop, do it like a boss on this big-wheeled singletrack shredder.

29ER CONFIDENCE AND CONTROL:
Larger 29-inch diameter wheels roll over rough terrain with balance and stability, giving you the momentum to tackle technical climbs and the confidence to fly on fast, rugged singletrack descents.

LATEST SUSPENSION TECH:
Updated Maestro rear suspension features a trunnion mount shock with a longer stroke and smoother feel. With 115mm of full rear-wheel travel (and 130mm up front), it has the new Advanced Forged Composite upper rocker arm for increased stiffness and strength plus lower overall frame weight.

TRAIL-TUNED CHASSIS:
The lightweight Advanced-grade composite frameset features updated geometry, including an aggressive 66.5-degree headtube angle and 74.5-degree seattube angle, plus a 44mm fork offset. The result is agile and efficient climbing capabilities plus added control for high-speed descents.

TRANCE ADVANCED PRO 29 0

XTC ADVANCED SL 29 0

Chaotic starts, the battle for position, red zone climbs and technical descents. XC racing is where adrenaline meets endurance, and this all-new superlight hardtail gives you just the kick you need to move up through the pack.

SUPERLIGHT AND RESPONSIVE:

Pro-level Advanced SL composite frame is the lightest off-road frame Giant has ever produced, offering serious XC racers a competitive advantage for climbing, accelerating and sprinting.

ULTRA-EFFICIENT:

The frame is engineered with the highest stiffness-to-weight-ratio of any hardtail mountain bike in its class, which translates to ultra-efficient pedaling power and precise handling on the trail.

CUSTOM COMPLIANCE:

Each frame is custom-tuned based on its size. Individual composite lay-up schedules are created to optimize vertical compliance to produce a smoother ride quality on XC terrain.

REVOLT ADVANCED PRO

Almost anything goes in gravel racing and riding. It's a mixed-up challenge of speed, endurance and handling. This high-performance all-rounder does it all. It's smooth, it's efficient, and it's your new best friend for pushing limits on roads, gravel and dirt.

- VERSATILE GRAVEL GEOMETRY:**
All-new gravel-riding geometry features endurance positioning and shorter chainstays. The result is precise handling, agility and control in all situations, from out-of-the-saddle road climbs to fast and rugged dirt road descents.
- TUNED COMPLIANCE:**
An innovative new Contact SLR D-Fuse handlebar and D-Fuse seatpost work as a system to help absorb shock without sacrificing the stiffness needed for aggressive road performance. Added frame clearance for high-volume 45c tires help smooth out rough roads, gravel and dirt.
- ALL-ROUNDER EFFICIENCY:**
Advanced composite frame maximizes pedaling power, giving Revolt Advanced a smooth, fast ride quality on variable riding surfaces.

Why should lightweight performance be limited to adult bikes? This sleek little aluminum flyer is the lightest in its category, and it's designed with stable geometry that makes it easy for young riders to get going.

LIGHTWEIGHT:
High-quality ALUXX aluminum construction delivers exceptional frame performance with lightest weight in its category.

YOUTH-SPECIFIC FEATURES:
Lightweight components for enhanced control and safe, ergonomic positioning and fit.

VERSATILITY:
Comes with tires that can be ridden on roads, gravel or dirt.

Liv

WE ARE LIV.

LIV DESIGN PHILOSOPHY

We have been dedicated to women since day one and are completely focused on getting more women on bikes.

- Liv bikes are designed from the ground up for women so we never have to compromise our ride.
- We dig deep into data that reveals varying proportions, dynamics and strengths of women's bodies to engineer frames that harness our power.
- The greatest variances that inform Liv's design is our unique pelvic width, muscle patterns and weight/muscle distribution.

Data from some other brands states that there are fewer differences between men and women and that differentiating them is outdated. What does Liv say about that?

- Our design approach is rooted in data about women specifically. We dig deep into data that reveals the varying proportions, dynamics and strengths of women's bodies.
- The data reflects unique differences in women, including pelvic width, muscle patterns and weight/muscle distribution.
- Our Liv 3F Design Philosophy is the compass that guides our team as we research, test, and create brand-new bike designs, apparel and gear.
- From the ground up, we design Liv bikes for women so we never have to compromise our ride.

Some other brands say stereotypes about men and women's bodies are wrong and that fit and geometry can be tuned to suit more riders.

- Other brands look at the similarities between gender, at Liv we see an opportunity to design for women.
- To do this, we design for how women are unique and offer a broader range of bikes for women.
- Liv calculates a bike's fit by using three layers of data: Body Dimensions, Muscular Activity, and Strength Patterns. We also fine-tune our performance products with feedback from athletes.
- Together, the data and feedback are applied to design the final frame and entire bike build to complement a woman's body and harness lower body strength.

LIV'S DATABASE

ANTHROPOMETRIC DIFFERENCES

- Looking at the average body measurements of men and women of 1,70 meters and 1,60 meters, we see significant anthropometrical differences that will determine the best bike fit.
- Differences in proportions become more pronounced for shorter men and women. When you put the average woman onto her closest sized men's frame, we see that she becomes too bent over and stretched out.
- Not only can this negatively impact her power output, pedal efficiency and balance for bike control, but it also can result in pain points such as lower back pain, neck pain, elbow pain, and numbing of the hands. Riding in the wrong position may lead to injury down the road...or trail.

HEIGHT DISTRIBUTION applies to how we decide our frame sizing range; we recognize that there is a range of body shapes and sizes that overlap. Liv is committed to proper bike fit for the majority of women, short and tall, by designing women's-specific geometries and componentry.

STRENGTH – Liv bicycle designs emphasize women's lower body strength, taking into account her natural muscle firing pattern.

- Data shows that women activate the rectus femoris (front thigh) muscles more so than men while cycling. When we look at how average men and women recruit strength from their lower body and upper body, our percentage of lower body to upper body strength is greater than that of a man's.
- We use this data on strength differences to tailor the stiffness and compliance of our frames to meet a woman's power demands, without sacrificing the strength and durability of the frame. This delivers a unique carbon layup in each of our composite frames for a tough, yet feather-light bike and a super comfortable ride.

ABOUT LIV CYCLING

- Liv is the only comprehensive cycling brand dedicated solely to women.
- Founded in 2008 by Giant executive Bonnie Tu as part of the Giant Group, Liv creates innovative bicycles and gear to fit and perform at the highest level.
- With a global team of retailers, athletes and events, plus a growing online presence focused on riding skills, bike maintenance, nutrition, travel, and other experiences – Liv supports community and be the number one resource for women cyclists around the world.

LIV'S 3F PHILOSOPHY

Liv is the only comprehensive cycling brand in the world dedicated solely to women. At Liv, we engineer and build bicycles and gear that fit and perform at the highest level. Liv's 3F design philosophy, Fit, Form, Function is the drive behind the team as we develop bike designs, apparel and gear.

FIT

Liv uses three layers of data for bike fit: body dimensions, muscular activity, and strength patterns. This data, along with feedback from our pro racers, is applied to the final frame and bike build. The result? The most powerful (and comfortable) you.

FORM

At Liv, it's more than just creating good-looking bikes. We create bikes that are impossible to ignore, with colors and graphics inspired by nature to ignite your senses. With an obsessive attention to detail, our vision is to inspire you to ride.

FUNCTION

Our goal is to get you as close as possible to the perfect ride, right out of the box. The package is only complete after the union of frame design, componentry, and the latest technologies.

AVAIL ADVANCED PRO 1

From epic solo adventures to group road rides, Avail Advanced Pro is light, comfortable and engineered for female riders.

- BUILT FOR ENDURANCE:**
Advanced-grade composite and OverDrive 2 supply unprecedented pedaling and cornering stiffness, on an endurance geometry for all-day riding.
- CONTROL:**
Combines the weight-savings and stability of a compact road frame design with powerful disc brakes for expert handling and control, no matter the weather and road conditions.
- ADAPTABLE COMFORT:**
Tackles the roads less traveled with larger-size tire compatibility, and a D-Fuse SL seatpost to soak up bumps.

ENVILIV ADVANCED PRO 0 DISC

50.999 KR.

Frame	Advanced-Grade Composite
Fork	Advanced Grade Composite, Full-Composite OverDrive 2 Steerer, Disc

PIQUE ADVANCED PRO 29er

Cross country riding just got a lot faster with the introduction of the Pique Advanced Pro 29. This new ultra-lightweight frame design and build prioritizes your speed by giving you a lightweight bike that is stiff, efficient and capable. With top of the podium performance, the Pique Advanced Pro 29 is built to get you up the mountain fastest.

FAST:
Lightweight and stiff full carbon frame with carbon handlebar and wheelset.

PREMIUM OUTLOOK:
Inspired C&G created with lightweight paint and internal cable routing for a sleek look.

EFFECTIVE:
Tuned suspension, cross-country specific dropper seatpost and a cross-country build that gets you to the finish first.

PIQUE ADVANCED PRO 29ER 1

36.999 KR.

BRAVE THE ELEMENTS

CONTENTS LIV X-ROAD

Brava SLR	82
Rove	82

BRAVA SLR

Charge in a cross race, grind up a gravel road or adventure through uncharted territory with Brava. The build of the bike creates a responsive and agile ride with precise steering without sacrificing comfort and stability. Enjoy how front-end stability and disc brakes give you extra confidence on the downhill, over technical features and in corners. Dirt, gravel, mud, sand and even paved roads— Brava rides them all.

AGILE:
Brava is designed to be lightweight, sprightly and durable to match your drive, whether that takes you through a grueling cross race or on a gravel adventure.

VERSATILE:
Race Brava throughout the winter or venture out on epic explorations across mixed terrain.

CONTROL:
Brava exhibits multiple layers of control, with disc brake technology, along with its athlete-vetted geometry and Liv's 3F design to deliver the best fit for a skillful ride.

TRANCE E+ PRO

Faster up the climbs, longer loops, more singletrack fun on any given day. Give yourself the power and freedom to extend your trail-riding adventures.

TOTAL CONTROL:

ALUXX SL frameset, 27.5 wheels, and 140mm of smooth Maestro suspension travel give you superior control for riding technical terrain.

POWERFUL MOTOR:

High-performance SyncDrive Pro motor with 80Nm of torque and tunable support ratios up to 360 percent lets you ride farther and master all terrain.

SMART TECHNOLOGY:

Equipped with smart features including the Giant RideControl app, with navigation, health and fitness tracking capabilities.

Weight	18,6 kg

EXPLORE BEYOND
BOUNDARIES

Vall-E+

Epic rides are now within reach. Access the mountainous adventures of your dreams

ACCESSIBLE AND RELIABLE:
Access to new trails and experiences is easily within reach thanks to the 140km range of the ultra-reliable EnergyPak 500Wh battery, which is neatly integrated in the downtube. The SyncDrive Sport Motor, co-developed with Yamaha, delivers 70 Nm of torque and has five speed control settings: Sport+, Sport, Normal, Eco+ and Eco, ranging from 50-350% pedal assistance, and a Smart Assist mode with 50-350% automatic power assistance.

INTEGRATED DESIGN:
The reliable and easy-to-access EnergyPak 500Wh side-release battery is beautifully integrated into a lightweight and durable ALUXX aluminum frame, designed and tuned for women using Liv's 3F Design Philosophy, for an agile and playful package.

SMOOTH RIDING:
PedalPlus 6-Sensor Technology smooths out bumps for a natural riding feel, and the ergonomic RideControl ONE handlebar controls make adjusting pedal assist simple. A suspension fork, 27.5x2.6-inch tires, and sloping top tube with low stand-over height specifically developed for women turns Vall E+ into an approachable and bump-gobbling ride.

TUBELESS TIRES

GAVIA COURSE

Course 0: 459 KR.
Course 1: 349 KR.

- Ultra-fast, all-round design
- RR-S compound for lowest rolling-resistance
- Superior cornering characteristics

GAVIA FONDO

Fondo 0: 459 KR.
Fondo 1: 349 KR.

- Endurance-specific design
- RR-E compound offers comfort on the rougher surfaces
- Optimal durability

GAVIA AC

AC 0: 459 KR.
AC 1: 349 KR.
AC 2: 229 KR.

- All-round design with extra profile
- Silicon compound
- Optimal grip in all conditions

CROSSCUT GRAVEL

Gravel 1: 349 KR.
Gravel 2: 269 KR.

- Gravel-specific design
- Compound optimized for 30% paved, 70% gravel
- X-Shield Puncture Protection

CROSSCUT METRO ERT

229 KR.

- Urban-specific design
- EasyRide Tubeless Technology
- Combination between control and comfort

CROSSCUT AT ERT

229 KR.

- All-Terrain design
- EasyRide Tubeless Technology
- Compound optimized for 50% paved, 50% unpaved surfaces

INNER TUBES

INNER TUBES ON-ROAD

80MM: 29 KR.
60MM: 29 KR.
48MM: 39 KR.
32MM: 59 KR.

- From 32mm up to 80mm valve length
- Presta valve

INNER TUBES OFF-ROAD

29 INCH: 39 KR.
27,5 INCH: 59 KR.

- 48mm valve length
- Presta valve

TUBELESS ACCESSORIES

CONTROL TANK

539 KR.

- Easy inflation using a floor pump
- Compatible with Presta & Schrader valves
- Durable and strong design

TUBELESS SEALANT

10X 60ML 389 KR.
475ML 229 KR.

- Sealant seals tire punctures
- Two versions: 475ml and 10x60ml

TUBELESS INSTALLATION TOOL

189 KR.

- Simplifies the installation of tubeless tires
- Felt tipped tool, will not damage rims

TIRE PATCH KIT-SLICK TIRE

119 KR.

- 3x Rubber compound patches + glue
- For use as temporary solution when the tire sealant is unable to seal a puncture

TIRE PLUGS-THREADED TIRE

59 KR.

- 10 Rubber compound patches + glue
- For use as temporary solution when the tire sealant is unable to seal a puncture

SEALANT CHECK & REFILL SYRINGE

79 KR.

- Allows you to easily check and refill tubeless tire sealant

TIRE MOUNTING LUBRICANT

79 KR.

- Use: Lubricate tire bead to aid tire fitment
- Volume: 100ml

GIANT TUBELESS TAPE

23MM 119 KR.
26MM 119 KR.
28MM 129 KR.

- Fits tubeless compatible wheels
- Available for various maximum rim widths

TUBELESS VALVE STEM

65MM 159 KR.
42MM 119 KR.

- Valve available for various rim heights
- Package contains 2 valves

VALVE CORE REMOVE TOOL

19 KR.

- Tool to remove valve core

POWER METERS

POWER PRO 52X36

170MM: 6.169 KR.
172.5MM: 6.169 KR.
175MM: 6.169 KR.

- Intuitive: connect via Bluetooth SMART or ANT+
- Accurate: 2% deviation, Giant-exclusive algorithm
- Robust: Anti-Dust Structure, IPX7 waterproof

POWER PRO 50X34

170MM: 6.169 KR.
172.5MM: 6.169 KR.
175MM: 6.169 KR.

- Intuitive: connect via Bluetooth SMART or ANT+
- Accurate: 2% deviation, Giant-exclusive algorithm
- Robust: Anti-Dust Structure, IPX7 waterproof

HANDLEBARS AND STEMS

CONTACT SLR INTEGRATED

3859 KR.

- Aero design: extensively windtunnel-tested
- Unique T2-Beam construction is stiffer, lighter and more compliant
- Integrated computer mount included

CONTACT SLR AERO PROPEL

1929 KR.

- Incredibly stiff and aerodynamic carbon handlebar, only compatible with Propel Contact SL(R) Aero Stem
- Integrated cable routing
- Reach 72, Drop 132

CONTACT SL AERO PROPEL

699 KR.

- stiff and aerodynamic aluminium handlebar, only compatible with Propel Contact SL(R) Aero Stem
- Integrated cable routing
- Reach 72, Drop 132

CONTACT SLR AERO

1539 KR.

- Ultra-light carbon composite, incredibly stiff and aerodynamic
- Available from 380mm to 440mm widths
- Clamp area: 31.8mm

CONTACT SLR

1389 KR.

- Ultra-light carbon-composite
- Reach: 70 - 85, Drop: 120 - 140
- Clamp area: 31.8mm

CONTACT SLR D-FUSE

1929 KR.

- Incredibly stiff yet comfortable carbon-composite handlebar
- D-Fuse Technology provides additional compliance
- Reach: 72, Drop: 125

CONTACT SL D-FUSE

619 KR.

- Stiff and comfortable aluminium handlebar
- D-Fuse Technology provides additional compliance
- Reach: 72, Drop: 125

CONTACT SL XR D-FUSE

389 KR.

- Stiff and comfortable aluminium handlebar
- D-Fuse Technology provides additional compliance
- 5 degree backsweep

CONTACT SL

389 KR.

- Light-weight and strong aluminium construction
- Reach: 70 - 75, Drop: 120 - 125
- Clamp area: 31.8mm

CONTACT

229 KR.

- Reliable aluminium construction
- Reach: 70 - 75, Drop: 120 - 125
- Clamp area: 31.8mm

CONTACT SLR AERO STEM + COVER

2.299 KR.

- Aerodynamic and incredibly stiff carbon stem, only compatible with Propel SL(R) Aero Handlebar
- Internal cable routing design, with stem cover

CONTACT SL AERO STEM + COVER

929 KR.

- Aerodynamic and stiff aluminium stem, only compatible with Propel SL(R) Aero Handlebar
- Internal cable routing design, with stem cover

CONTACT SL STEALTH STEM

769 KR.

- Aerodynamic and stiff aluminium stem, only compatible with Defy models
- Internal cable routing design, with stem cover
- OverDrive 2 for improved cornering stiffness

CONTACT SLR FLUX

1.699 KR.

- Light-weight carbon aerodynamic stem
- OverDrive 2 for improved cornering stiffness
- Compatible with 31.8mm handlebars

CONTACT SLR OD2

1.539 KR.

- Light-weight and stiff carbon OverDrive 2 stem
- 8 degree rise
- Compatible with 31.8mm handlebars

CONTACT SL OD2

459 KR.

- Light-weight aluminium OverDrive 2 stem
- 8 degree rise
- Compatible with 31.8mm handlebars

CONTACT OD2

269 KR.

- Aluminium OverDrive 2 stem
- 8 degree rise
- Compatible with 31.8mm handlebars

CONNECT

189 KR.

- Reliable aluminium construction with steel hardware
- 8 degree rise
- Only compatible with OverDrive steerer tubes

CLIP-ON BARS

CONTACT AERO CLIP-ON CLAMP

1.389 KR.

- Compatible with Propel (Disc) SLR Aero and SL Aero handlebars model year 2018 and newer
- Adjustable height
- Compatible with various clip-on bars, like S-type, Ski-type, U-type and Straight-type

CONTACT SL AERO CLIP ON CLAMP

1.079 KR.

- Fits the regular SLR Aero handlebar
- Adjustable height
- Compatible with various clip-on bars, like S-type, Ski-type, U-type and Straight-type

CONNECT SL CLIP ON CLAMP

699 KR.

- Fits 31.8mm round handlebars
- 1 bolt mount system
- Compatible with various clip-on bars, like S-type, Ski-type, U-type and Straight-type

CONNECT SL U-TYPE BAR

929 KR.

- Light-weight carbon construction

CONNECT SL SKI-TYPE BAR

699 KR.

- Light-weight carbon construction

CONNECT SL S-TYPE BAR

699 KR.

- Light-weight carbon construction

CONNECT SL STRAIGHT-TYPE BAR

619 KR.

- Light-weight carbon construction

GRIPS

ERGO MAX PLUS LOCK-ON GRIP

229 KR.

- Ergonomic profile
- Textured anti-slip surface
- Single-sided lock-on

ERGO MAX LOCK-ON GRIP

139 KR.

- Ergonomic profile
- Textured anti-slip surface
- Single-sided lock-on

ERGO MAX GRIP

79 KR.

- Ergonomic profile
- Textured anti-slip surface

TACTAL DOUBLE LOCK-ON GRIP

159 KR.

- Made from soft and durable Kraton rubber
- Special anatomic surface
- Double-sided lock-on

TACTAL SINGLE LOCK-ON GRIP

119 KR.

- Made from soft and durable Kraton rubber
- Special anatomic surface
- Single-sided lock-on

CONTACT AL BAR END

119 KR.

- Aluminium bar end
- Rubberized thumb plate

CONTACT ERGO BAR END

159 KR.

- Ergonomic profile for maximum comfort
- Rubber surface offers maximum grip
- Stainless steel hardware

HANDLEBAR TAPE

STRATUS LITE

3.0 189 KR.
2.0 179 KR.

- PU materiaal voor optimale grip
- Ultralichte padding vermindert gewicht met 33%
- 2mm & 3mm dikte

STRATUS 3.0 & 2.0

3.0 129 KR.
2.0 119 KR.

- PU materiaal voor optimale grip
- Microfiber padding verbetert comfort
- 3mm dikte

CONNECT GEL

79 KR.

- Anti-trilling gel absorbeert schokken
- 2mm dikte

KICKSTANDS

DIRECT MOUNT KSA KICKSTAND TREKKING

159 KR.

- Aluminium construction
- E-Bike compatible
- Adjustable leg from 320mm to 400mm length

DIRECT MOUNT KSA KICKSTAND CITY

159 KR.

- Aluminium construction
- Fits on 24 - 29 inch models
- Adjustable leg

MOBILITY KICKSTAND

129 KR.

- Compatible with FastRoad & ToughRoad models
- Easy assembly

BOTTLE CAGES

AIRWAY LITE MATT

299 KR.

- UD carbon fiber
- Extremely light: 14 grams

AIRWAY COMP SIDE PULL

229 KR.

- Light-weight composite material
- Opening on the right side
- 26 grams

AIRWAY COMP

229 KR.

- Light-weight composite material
- Open construction design
- 26 grams

AIRWAY SPORT

159 KR.

- Flexibel lichtgewicht plastic materiaal
- Ontwerp met open constructie
- 32 grams

AIRWAY SPORT SIDE PULL

159 KR.

- Flexible light-weight plastic material
- Opening on the right side
- 48 grams

GATEWAY 4MM

59 KR.

- 4mm alloy
- Robust yet flexible
- Suitable for various bottles

GATEWAY 6MM

59 KR.

- 6mm alloy
- Robust yet flexible
- Suitable for various bottles

GATEWAY 5MM

39 KR.

- 5mm alloy
- Robust yet flexible
- Suitable for various bottles

BOTTLES

POUR FAST DOUBLES PRING 750CC

59 KR.

- Anti-microbial coating
- 100% dishwasher-proof
- Nozzle design improves water flow

POUR FAST DOUBLES PRING 600CC

39 KR.

- Anti-microbial coating
- 100% dishwasher-proof
- Nozzle design improves water flow

FENDERS

MIDGARD FSX REAR FENDER

119 KR.

- Dual compound material increases durability
- Quick release

MIDGARD FSX FRONT FENDER

119 KR.

- Dual compound material increases durability
- Quick release
- Compatible with most suspension forks

SPEEDSHIELD DEFY & CONTEND DISC FENDER

389 KR.

- Unbreakable PC construction
- Fit: 700c x 23-25mm Disc - Defy, Contend and Avail

SPEEDSHIELD FASTROAD FENDER

299 KR.

- Unbreakable PC construction
- Fit: 700c x 23-32mm FastRoad

EXPLORE-E FENDER SET

299 KR.

- Compatible with Explore E+ (MY18/MY19) and Amiti-E+ (MY18/MY19) series in all frame sizes and up to 700 x 44c wheel size
- Lightweight and durable
- High protection against corrosion

SPEEDSHIELD ANYROAD FENDER

269 KR.

- Unbreakable PC construction
- Fits 700c x 23-35mm AnyRoad

REVOLT FENDER SET

229 KR.

- Compatible with Revolt (MY19+) in all frame sizes
- Up to 40mm tire width
- Light-weight and durable

TOUGHROAD 29 FENDER

189 KR.

- Compatible with ToughRoad models
- Indestructible all-weather construction
- Easy to assemble

PEDALS

ROAD PRO CLIP PEDAL

539 KR.

- Compatible with Look cleats
- Light-weight carbon body
- LSL durable bearings

ROAD ELITE CLIP PEDAL

389 KR.

- Compatible with Look cleats
- Aluminium body
- LSL durable bearings

TRAIL ELITE CLIPLESS

499 KR.

- Compatible with Shimano SPD cleats
- Coated aluminium body
- LSL durable bearings

MTB PRO CLIP PEDAL

429 KR.

- Compatible with Shimano SPD cleats
- Coated aluminium body
- LSL durable bearings

MTB PEDAL SPORT

459 KR.

- Aluminium body
- Cr-Mo axle
- ball-bearings

MTB PEDAL CORE

229 KR.

- Aluminium body
- Cr-Mo axle
- 10 removable pins

METRO PEDAL

159 KR.

- Anti-slip Surface
- Ergonomic platform
- TPE rubber tread

CITY PEDAL - SPORT

119 KR.

- Polished aluminium
- PP-body
- TPE rubber tread

CITY PEDAL - CORE

59 KR.

- One-piece PP-body
- TPE rubber tread

PEDAL CLEATS 0

119 KR.

- Compatible with LOOK® cleats system
- Memory position for separate front and rear cleat, makes changing cleats easy
- 0 degree float

PEDAL CLEATS 4.5

119 KR.

- Compatible with LOOK® cleats system
- Memory position for separate front and rear cleat, makes changing cleats easy
- 4.5 degree float

PEDAL CLEATS 9

119 KR.

- Compatible with LOOK® cleats system
- Memory position for separate front and rear cleat, makes changing cleats easy
- 9 degree float

MTB PEDAL CLEATS

99 KR.

- Compatible with Shimano SPD pedals
- Available in single and multiple direction release

159 KR.

- Wireless cycling computer
- One button mode operation
- 6 functions

ANT+ & BLE 2 IN 1 HEART RATE BELT

389 KR.

- ANT+ and Bluetooth compatible
- Comfortable elastic belt
- CR2032 battery

ANT+&BLE 2 IN 1 SPEED AND CADENCE SENSOR

389 KR.

- Speed and cadence sensor
- Transmit via ANT+ or Bluetooth
- Mounting materials included

NEW RIDESENSE ANT+ / BLE

389 KR.

- Speed and cadence sensor
- Transmit via ANT+ or Bluetooth
- Fits in chainstay of RideSense compatible Giant frames

EXTENSION MOUNT & GOPRO MOUNT

349 KR.

- MTB Mount
- Stem Extension Mount

EXTENSION MOUNT FOR NEOSTRACK

119 KR.

- Plastic mount
- Compatible with 31.8mm oversized handlebars as well as 28.6mm handlebars

CONDUCT SL ADAPTER PACK

229 KR.

- Easily mount accessories on the Conduct SL stem cap
- Computer mount with Giant and Garmin tray
- Mount for GoPro or light

MTB EXTENSION MOUNT

269 KR.

- CNC aluminium material
- Fits 31.8mm & 35mm handlebars
- Compatible with Giant and Garmin computers and GoPro mount

STEM EXTENSION MOUNT

119 KR.

- Garmin computer / Giant Computers compatible
- Compatible with MY18 Propel and Contact SL stem
- Mount bolt holes ready for GoPro or lights

LIGHTS

RECON+ 1600

929 KR.

- Max. Output: 1600 Lumens
- 5 modes: High, Middle, Low, Smart, Flash
- Power status indicator alerts remaining run-time before powering off

RECON+ 900

699 KR.

- Max. Output: 900 Lumens
- 5 modes: High, Middle, Low, Smart, Flash
- Power status indicator alerts remaining run-time before powering off

RECON+ 700

499 KR.

- Max. Output: 700 Lumens
- 5 modes: High, Middle, Low, Smart, Flash
- Power status indicator alerts remaining run-time before powering off

RECON+ 500

349 KR.

- Max. Output: 500 Lumens
- 5 modes: High, Middle, Low, Smart, Flash
- Power status indicator alerts remaining run-time before powering off

RECON HL 200

349 KR.

- Max. output: 200 Lumens
- 5 modes: High, Low, High Flash, Low Flash, Smart Mode
- Max. battery: 7 hours (50 Lumens)

RECON HL 100

229 KR.

- Max. output: 100 Lumens
- 5 modes: High, Low, High Flash, Low Flash, Smart Mode
- Max. battery: 4,5 hours (50 Lumens)

RECON HL 900 & TL 200

969 KR.

- Recon HL 900 headlight
- Recon TL 200 taillight

RECON HL 700 & TL 200

849 KR.

- Recon HL 700 headlight
- Recon TL 200 taillight

RECON HL 500 & TL 100

499 KR.

- Recon HL 500 headlight
- Recon TL 100 taillight

RECON TL 200

389 KR.

- Max. output: 200 Lumens
- 5 modes: High, Low, High Flash, Low Flash, Smart Mode
- Max. battery: 5 hours (50 Lumens)

RECON TL 100

229 KR.

- Max. output: 200 Lumens
- 5 modes: High, Low, High Flash, Low Flash, Smart Mode
- Max. battery: 13 hours (5 Lumens)

RECON HL 100 & TL 100

389 KR.

- Recon HL 100 headlight
- Recon TL 100 taillight

RECON TL SADDLE RAIL MOUNT

39 KR.

- Clips easily and securely under various types of saddles
- Compatible with Recon TL lights

RECON TL HELMET MOUNT

39 KR.

- An easy to attach mount that allows you to clip your Recon TL to any compatible Giant helmet
- Compatibel with Recon TL lights

UNDER STEM MOUNT

79 KR.

- Plastic mount to mount Recon lights under the handlebar
- Compatible with 31.8mm and 28.6mm handlebars

NUMEN+ UNICLIP TL

189 KR.

- 20 Lumens
- USB rechargeable
- Compatible with UniClip accessories

NUMEN COMBO 4

119 KR.

- Headlight: 20 Lumens, 2x AA batteries, 3 modes
- Taillight: 10 Lumens, 1x AA batteries, 3 modes

NUMEN MINI COMBO

99 KR.

- Headlight: 2 LEDs with 2 modes
- Taillight: 2 LEDs with 2 modes
- Replaceable CR2032 batteries

TOOLS & COMBO KITS

QUICK FIX KIT ROAD

389 KR.

- Compact waterproof bag for storage
- Mini ratchet with H2/2.5/3/4/5/6 + SL2, T10, T25
- Control Blast 0 with 2 16 gram cartridges

QUICK FIX KIT MTB

389 KR.

- Compact waterproof bag for storage
- Mini ratchet with H2/2.5/3/4/5/6 + SL2, T10, T25
- Control Blast 0 with 2 25 gram cartridges

QUICK FIX KIT COMBO

349 KR.

- Multitool, 12 glueless patches and 2 tire levers
- Mini-pump
- Seat bag 0,7L

TIRE PATCH KIT

39 KR.

- 2 tire levers
- 6 self-adhesive patches
- Glue
- Sandpaper

TIRE LEVER 2PC/SET

29 KR.

- Perfect fit for Giant Wheelsystems
- Safe for carbon rims
- Ergonomic shape

TOOLSHED 13

189 KR.

- Durable, corrosion resistant nickel plated vanadium bits
- 2/2.5/3/4/5/6/8/10 hex
- PH2 philips

TOOLSHED 11

139 KR.

- Durable, corrosion resistant nickel plated vanadium bits
- 2/2.5/3/4/5/6/8/10 hex
- PH2 philips

TOOLSHED 6

89 KR.

- Durable, corrosion resistant nickel plated vanadium bits
- 3/4/5/6mm hex
- PH2 philips

SEAT BAGS

SEAT BAG WP

159 KR.

- Perfex™ hi-frequency welded seams, 100% waterproof
- Quick-release mounting
- Volume 0,6 L

SHADOW DX L

229 KR.

- Fixing: Anti-slip hook-and-loop Velcro® straps
- ProTextura waterproof material and internal mesh pocket
- Volume 1.4L

SHADOW DX M

189 KR.

- Fixing: Anti-slip hook-and-loop Velcro® straps
- ProTextura waterproof material and internal mesh pocket
- Volume 0.7L

SHADOW DX S

155 KR.

- Fixing: Anti-slip hook-and-loop Velcro® straps
- ProTextura waterproof material and internal mesh pocket
- Volume 0.5L

CO2

10 CARTRIDGES

189 KR.

- 10x CO2 16g cartridges
- Compatible with Control Blast inflators

3 CARTRIDGES

79 KR.

- 3x CO2 16g cartridges
- Compatible with Control Blast inflators

CONTROL BLAST 1

119 KR.

- User-friendly pump head
- Compatible with Presta and Schrader valves
- 1 16 gram cartridge included

CONTROL BLAST 0

79 KR.

- Aluminium body
- User-friendly control knob
- Compatible with Presta and Schrader valves

MINI PUMPS

PUMP CONTROL SHOCK

299 KR.

- Removable pressure gauge, up to 300 psi
- Foldable hose and T-handle
- 0,15 - 0,2 bar / 2-3 psi micro-adjust bleeder button

MINI MTB+

229 KR.

- Extendable hose with unique roller system
- Presta & Schrader threaded valve
- 140 psi / 9 bar max.

MINI ROAD+

229 KR.

- Extendable hose with unique roller system
- Presta & Schrader threaded valve
- 160 psi / 11 bar max.

MINI+

159 KR.

- 3 cm gauge
- T-handle design
- AutoHead valve for Presta and Schrader
- Up to 120 psi / 8 bar

CONTROL MINI MTB

129 KR.

- Anti slip folding T-Handle
- Compatible with Presta and Schrader valves
- 90 psi / 5 bar max.

CONTROL MINI ROAD

119 KR.

- Anti slip folding T-Handle
- Compatible with Presta and Schrader valves
- 120 psi / 8 bar max.

FLOORPUMPS

CONTROL TOWER PRO BOOST

769 KR.

- Tubeless boost mode makes mounting tubeless tires easy
- Max. 200 psi
- Aluminium pump barrel

CONTROL TOWER PRO

539 KR.

- Oversized easy-to-read gauge, highly accurate up to 160 psi
- Strong aluminium Barrel-in-Barrel design
- Max. 220 psi

CONTROL TOWER 1

459 KR.

- High-pressure floor pump with top-mounted gauge which reads up to 11 bar
- Steel barrel and base
- Max. 200 psi

CONTROL TOWER 2

299 KR.

- High-pressure floor pump with precise pressure gauge
- Durable powder-coated finish
- Max. 160 psi / 11 bar

CONTROL TOWER 3

229 KR.

- Large easy-to-read gauge
- Wide plastic base with gripper plates
- Max. 160 psi / 11 bar

CONTROL TOWER 4

119 KR.

- Wide reinforced plastic base
- Max. 160 psi / 11 bar

ON-ROAD HELMETS

RIVET TT

1.539 KR.

- Highly aerodynamic TT helmet
- Optimized aerodynamics through CFD analyses
- Strategically placed AeroVent ports for superior ventilation

PURSUIT MIPS

1.699 KR.

- Optimized ventilated aerodynamics design
- Ventilation: Strategically placed aerodynamic AeroVents
- Protection: EPS combined with a polycarbonate shell

REV PRO

1.539 KR.

- Allround ventilated aerodynamic design
- Ventilation: Strategically placed aerodynamic AeroVents
- Protection: EPS combined with a polycarbonate shell

REV MIPS

1.159 KR.

- Allround, light-weight and aggressive design
- Ventilation: AirFlow 21-vent cooling system
- Protection: Internal Structural Shell in combination with EPS

REV

929 KR.

- Allround, light-weight and aggressive design
- Ventilation: AirFlow 21-vent cooling system
- Protection: Internal Structural Shell in combination with EPS

REV COMP MIPS

579 KR.

- All-round helmet for everyday road riding performance
- Protection: Internal Structural Shell in combination with EPS
- Numen+ Link TL magnetic mount integration

REV COMP

389 KR.

- All-round helmet for everyday road riding performance
- Protection: Internal Structural Shell in combination with EPS
- Numen+ Link TL magnetic mount integration

MIPS BRAIN PROTECTION SYSTEM

MIPS: Protects the brain against friction during a fall

OFF-ROAD HELMETS

RAIL SX

1,159 KR.

- Specific trail-design
- Protection: EPS combined with a polycarbonate shell
- Extra: GoPro compatible

ROOST MIPS

769 KR.

- Off-road helmet with optimal safety
- Protection: EPS combined with a polycarbonate shell
- Numen+ Link TL magnetic mount integration and GoPro mount option

ROOST

619 KR.

- Off-road helmet with optimal safety
- Protection: EPS combined with a polycarbonate shell
- Numen+ Link TL magnetic mount integration and GoPro mount option

COMPEL MIPS

459 KR.

- All-round helmet for aspiring riders
- Protection: EPS combined with a polycarbonate shell
- Numen+ Link TL magnetic mount integration

COMPEL

299 KR.

- All-round helmet for aspiring riders
- Protection: EPS combined with a polycarbonate shell
- Numen+ Link TL magnetic mount integration

MIPS BRAIN PROTECTION SYSTEM

MIPS: Protects the brain against friction during a fall

ON-ROAD FOOTWEAR

SURGE PRO

2,299 KR.

- New 100% thermoset carbon ExoBeam plate produces the lightest, stiffest plate
- ExoWrap supports every foot and arch type
- 2x Boa Powerzone

SURGE ELITE

1,539 KR.

- New thermoset carbon/glass fiber composite ExoBeam plate produces a light and stiff plate
- ExoWrap supports every foot and arch type
- 1x Boa Powerzone

SURGE COMP

1,159 KR.

- ExoBeam nylon plate produces a light and stiff plate
- ExoWrap supports every foot and arch type
- 1x Boa Powerzone

PHASE 2

849 KR.

- ForceDrive nylon plate
- AirStream 4-vent cooling system
- Fast buckle system + 2 Velcro straps

BOLT

699 KR.

- ForceDrive nylon plate
- AirStream 4-vent cooling system
- 3 Velcro straps

OFF-ROAD FOOTWEAR

CHARGE PRO

2,299 KR.

- New 100% thermoset carbon ExoBeam plate produces the lightest, stiffest plate
- ExoWrap supports every foot and arch type
- 2x Boa Powerzone

CHARGE ELITE

1,539 KR.

- New thermoset carbon/glass fiber composite ExoBeam plate produces a light and stiff plate
- ExoWrap supports every foot and arch type
- 1x Boa Powerzone

TRANSMIT

849 KR.

- ExoBeam nylon plate produces a light and stiff plate
- Buckle closure
- 2 Velcro straps

FLUX

699 KR.

- ExoBeam nylon plate produces a light and stiff plate
- 3 Velcro straps

SHOE COVERS

DIVERSION WP SHOE COVER
299 KR.

- ThermTextura material keeps you warm in colder weather conditions
- ProTextura™ 4-way stretch fabric features waterproof and windproof protection with high breathability
- Back zipper enclosure

PROSHIELD SHOE COVER
299 KR.

- Waterproof coating with ProTextura Technology
- Flexible Lycra material
- Back zipper enclosure

ILLUME SHOE COVER
229 KR.

- Waterproof coating with ProTextura Technology
- Flexible Lycra material
- Back zipper enclosure

CHILL SHOE COVER
269 KR.

- ProTextura Plus wind- and waterproof material
- ThermTextura properties using neopreen
- Velcro closure with zipper

CALDO SHOE COVER
189 KR.

- ProTextura Plus wind- and waterproof material with PU-coating
- ThermTextura fleece material on the inside
- Back zipper enclosure with velcro

CALDO TOE COVER
159 KR.

- Stretching waterproof PU coating on the outside
- ThermTextura material on the inside keeps you warm in colder weather conditions
- Anti-slip material keeps toe covers in place

EYEWEAR

STRATOS NXT VARIA
699 KR.

- Unique Grilamid TR90 frame material, with sweat flow channel
- Two nose-pieces for optimal fit
- NXT@ Varia™ lens adjusts according to light conditions

STRATOS KOLOR UP ROAD
459 KR.

- Unique Grilamid TR90 frame material, with sweat flow channel
- Two nose-pieces for optimal fit
- Lens with 13% transmission for optimal vision in sunny conditions

STRATOS
389 KR.

- Comfortable elastic TR-90 material frame and temple
- Two nose-pieces for optimal fit
- With extra transparent lens

JERSEYS

ELEVATE SS JERSEY
929 KR.

- Made in collaboration with Cuore
- TransTextura material offers great durability and dries quickly
- The ultra-thin and elastic material ensures for optimum comfort

RACE DAY MID-THERMAL LS JERSEY
769 KR.

- ThermTextura material keeps you warm during cold weather conditions
- Full-length auto-lock zipper
- Silicone grippers hold the jersey firmly in place

RACE DAY SS JERSEY
619 KR.

- TransTextura material offers great durability and dries quickly
- Full-length auto-lock zipper
- Silicone grippers hold the jersey firmly in place

PODIUM SS JERSEY
459 KR.

- TransTextura material offers great durability and dries quickly
- Full-length zipper
- Silicone grippers hold the jersey firmly in place

ILLUME LS JERSEY
769 KR.

- ThermTextura material keeps you warm in cold weather conditions
- Elastic material ensures a tight fit
- High visibility neon yellow with reflective accents

ILLUME SHORT SLEEVE JERSEY
459 KR.

- TransTextura material offers great durability and dries quickly
- Silicone grippers hold the jersey firmly in place
- High visibility neon yellow with reflective accents

TRANSCEND SS JERSEY
459 KR.

- Relaxed Fit
- TransTextura material offers great durability and dries quickly

BIB SHORTS & TIGHTS

ELEVATE BIB SHORT

1,159 KR.

- Made in collaboration with Cuore
- Cuore 3D ProComfort chamois
- Premium materials provide compression and optimal comfort

RACE DAY BIB SHORT

769 KR.

- Comfortable and race-oriented E.I.T Liege chamois
- Elastic grippers provide compression
- Mesh bib straps

DIVERSION WP BIB TIGHT

929 KR.

- ThermTextura material keeps you warm in cold weather conditions
- ProTextura wind- and waterproof material protects in wet weather conditions
- Elastic and comfortable bib straps

PODIUM THERMAL BIB TIGHT

769 KR.

- ThermTextura material keeps you warm in cold weather conditions
- SportComfor chamois
- Elastic and comfortable bib straps

PODIUM BIB SHORT

619 KR.

- SportComfor chamois
- Elastic grippers provide compression
- Elastic and comfortable bib straps

TOUR BIB SHORT

459 KR.

- CoreComfor chamois
- Elastic grippers provide compression
- Elastic and comfortable bib straps

TOUR SHORT

389 KR.

- CoreComfor chamois
- Elastic grippers provide compression

TOUR TIGHT

429 KR.

- CoreComfor chamois
- Elastic grippers provide compression

TRANS SHORT

619 KR.

- Easy detachable CoreComfor chamois
- Adjustable hip strap
- Open pockets and 1 zipper pocket on the back

JACKETS & VESTS

PROSHIELD MTB JACKET

1,079 KR.

- ProTextura material
- Detachable hoodie
- Lightweight and easy to take-away

DIVERSION WP THERMAL JACKET

1,079 KR.

- ThermTextura material keeps you warm in cold weather conditions
- ProTextura wind- and waterproof material protects with wet weather conditions
- High stretch design

DIVERSION WP SS JERSEY

849 KR.

- ProTextura wind- and waterproof material protects in wet weather conditions
- Aerodynamic cut
- High stretch design

DIVERSION WP VEST

769 KR.

- ProTextura wind- and waterproof material protects in wet weather conditions
- Aerodynamic cut
- High stretch design

PROSHIELD RAIN JACKET

769 KR.

- ProTextura wind- and waterproof material protects in wet weather conditions
- Breathable material on the back
- Aerodynamic design

SUPERLIGHT WIND JACKET

539 KR.

- Superlight ProTextura wind- and waterproof material protects in wet weather conditions
- Breathable material on the back
- Aerodynamic design

SUPERLIGHT WIND VEST

459 KR.

- Superlight ProTextura wind- and waterproof material protects in wet weather conditions
- Breathable material on the back
- Aerodynamic design

ARM & LEG WARMERS

DIVERSION WP KNEE WARMER
299 KR.

- ThermTextura material keeps you warm in cold weather conditions
- ProTextura wind- and waterproof material protects in wet weather conditions
- 3D ergonomic fit

DIVERSION WP ARM WARMER
269 KR.

- ThermTextura material keeps you warm in cold weather conditions
- ProTextura wind- and waterproof material protects in wet weather conditions
- 3D ergonomic fit

ILLUME ARM WARMER
229 KR.

- ThermTextura material keeps you warm in cold weather conditions
- High visibility neon yellow
- 3D ergonomic fit

CALDO LEG WARMER
269 KR.

- Elastic ThermTextura material
- Ergonomic design for perfect fit
- Silicone grippers

CALDO KNEE WARMER
229 KR.

- Elastic ThermTextura material
- Ergonomic design for perfect fit
- Silicone grippers

CALDO ARM WARMER
189 KR.

- Elastic ThermTextura material
- Ergonomic design for perfect fit
- Silicone grippers

CALDO CYCLING CAP
179 KR.

- ThermTextura fleece material retains body heat
- Foldable side flaps protect your ears against the cold
- Stretching material provides optimal fit and comfort

CALDO SKULL CAP
159 KR.

- ThermTextura fleece material retains body heat
- Foldable side flaps protect your ears against the cold
- Stretching material provides optimal fit and comfort

CALDO HEADBAND
139 KR.

- ThermTextura fleece material retains body heat
- Ergonomic cut
- Reflective accents improve visibility

CALDO BALACLAVA
229 KR.

- ThermTextura fleece material retains body heat
- Stretching material adapts to your face
- Reflective accents improve visibility

HEADGEAR

ELEVATE CYCLING CAP
159 KR.

- TransTextura material offers great durability and dries quickly
- Classic 4-panel construction offers optimal fit and comfort
- Perfect match with the Elevate kit

RACE DAY CYCLING CAP
189 KR.

- TransTextura material offers great durability and dries quickly
- Hi-tech mesh structure keeps your head cool and comfortable
- Perfect match with the Race Day kit

PROSHIELD CYCLING CAP
189 KR.

- ThermTextura fleece material retains body heat
- Windproof material at the front
- Ergonomic cut

CASCADE 2
769 KR.

- Hydropack with a 3L isolated hydration compartment
- Padded shoulder straps and hip strap with adjustable strap at breastbone
- Reinforced cushions for extra comfort

CASCADE 1
619 KR.

- Hydropack with a 2L isolated hydration compartment
- Padded shoulder straps and hip strap with adjustable strap at breastbone
- Reinforced cushions for extra comfort

SOCKS

ELEVATE SOCK

159 KR.

- TransTextura Plus material ventilates and dries quickly
- Y-gore heel support
- Compression material

ILLUME SOCK

139 KR.

- TransTextura Plus material ventilates and dries quickly
- Y-gore heel support
- High visibility neon yellow with reflective accents

RACEDAY SOCK

119 KR.

- TransTextura Plus material ventilates and dries quickly
- Mesh for optimal ventilation
- Y-gore heel support

RIVAL TALL SOCK

59 KR.

- TransTextura Plus material ventilates and dries quickly
- Mesh for optimal ventilation
- Flat seams and a seamless closure

RIVAL LOW SOCK

79 KR.

- TransTextura Plus material ventilates and dries quickly
- Mesh for optimal ventilation
- Flat seams and a seamless closure

GLOVES

ELEVATE SF GLOVE

229 KR.

- Lightweight, stretching mesh with TransTextura Technology
- Strategic placed pads for optimal feeling
- Bolton thumb construction for perfect fit

ELEVATE LF GLOVE

269 KR.

- Lightweight, stretching mesh with TransTextura Technology
- Strategic placed pads for optimal feeling
- Bolton thumb construction for perfect fit

RACE DAY SF GLOVE

189 KR.

- TransTextura material offers great durability and dries quickly
- Elastic closure
- Preformed thumb construction

RACE DAY LF GLOVE

229 KR.

- TransTextura material offers great durability and dries quickly
- Elastic closure
- Preformed thumb construction

ILLUME SF GLOVE

179 KR.

- High visibility neon yellow with reflective accents
- Breathable and stretching Lycra
- Preformed thumb construction

ILLUME CHILL LF GLOVE

229 KR.

- High visibility neon yellow with reflective accents
- Stretching material is wind- and waterproof
- Preformed thumb construction

RIVAL SF GLOVE

159 KR.

- TransTextura material offers great durability and dries quickly
- Microfiber palm provides comfort and support
- Micro-Velcro closure

RIVAL LF GLOVE

159 KR.

- TransTextura material offers great durability and dries quickly
- Microfiber palm provides comfort and support
- Micro-Velcro closure

DIVERSION LF GLOVE

389 KR.

- ProTextura wind- and waterproof material protects with wet weather conditions
- TransTextura material for heat management
- Comfortable leather palm with strategic placed padding for optimal comfort

CHILL GLOVE

269 KR.

- Wind- and waterproof glove handschoen
- Breathable and Lycra
- Leather palm with anti-slip

CHILL LITE GLOVE

189 KR.

- Wind- and waterproof glove handschoen
- Breathable and Lycra
- Fleece lining

CONTACT SLR AERO
1,929 KR.

- Incredibly stiff and aerodynamic carbon handlebar, only compatible with EnviLiv Contact SL(R) Aero Stem
- Integrated cable routing

HANDLEBAR TAPE

CHAMELEON
189 KR.

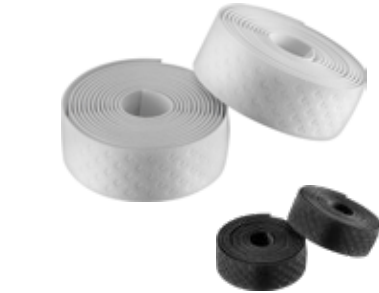

- Fits seamlessly with Liv models with special Chameleon paint
- Ultra-light
- EVA foam for comfort

ASSURE 3.0
129 KR.

- PU material for optimal grip
- Microfiber padding improves comfort
- 3mm thickness

CONTACT
79 KR.

- Suede material
- EVA foam for comfort
- 2mm thickness

GRIPS

SOLE-O LOCK-ON GRIP
119 KR.

- Double-sided lock-on
- Made from soft and durable Kraton rubber
- 135mm length

BOTTLES

DOUBLESRING
600CC 39 KR.
750CC 59 KR.

- Anti-microbial coating
- 100% dishwasher-proof
- Nozzle design improves water flow

CLEANSRING
600CC 59 KR.
750CC 79 KR.

- 100% BPA-free
- AutoSpring™ leak-proff nozzle
- PourFast™ for improved waterflow

BOTTLE CAGES

AIRWAY LITE
299 KR.

- Carbon fiber constructie
- Ontwerp met open constructie
- 16 gram

AIRWAY COMPOSITE SIDEPULL
229 KR.

- Koolstofvezel injectiedesign
- Met opening aan de linkerkant
- 31 gram

AIRWAY SPORT
159 KR.

- PA66 flexibel materiaal
- Ontwerp met open constructie
- Geschikt voor verschillende bidons

GATEWAY
59 KR.

- 4mm legeringsbuis
- Robuust en toch flexibel
- Geschikt voor verschillende bidons

SADDLES

CONTACT SL
619 KR.

- Particle Flow Technology
- Carbon base
- Stainless steel rail

CONTACT
389 KR.

- Particle Flow Technology

VECTA SEAT BAG M
229 KR.

- ProTextura material with waterproof zipper
- Quick-release mounting with hook and Velcro straps
- Volume 1 L

VECTA SEAT BAG S
189 KR.

- ProTextura material with waterproof zipper
- Quick-release mounting with hook and Velcro straps
- Inhoud 0,6 L

TOOLS & COMBO KITS

QUICK-FIX COMBO KIT WITH MINI PUMP
349 KR.

- Multitool, 12 glueless patches and 2 tire levers
- Mini-pump
- Seat bag 0,7L

TIRE LEVER FOR TUBELESS
29 KR.

- Perfect fit for Giant Wheelsystems
- Safe for carbon rims
- Ergonomic shape

FLOOR PUMPS

CONTROL TOWER 2
299 KR.

- High-pressure floor pump with precise pressure gauge
- Steel barrel and base
- Max. 160 psi / 11 bar

ON-ROAD HELMETS

REV LIV PRO
1.539 KR.

- All-round ventilated aerodynamic design
- Ventilation: Strategically placed aerodynamic AeroVents
- Integrated MIPS design met het Cinch Pro Fit System

REV LIV MIPS
1.159 KR.

- Allround, light-weight and aggressive design
- Ventilation: AirFlow 21-vent cooling system
- Protection: Internal Structural Shell in combination with EPS

REV LIV
929 KR.

- Allround, light-weight and aggressive design
- Ventilation: AirFlow 21-vent cooling system
- Protection: Internal Structural Shell in combination with EPS

REV LIV COMP MIPS
579 KR.

- All-round helmet for everyday road riding performance
- Protection: Internal Structural Shell in combination with EPS
- Numen+ Link TL magnetic mount integration

REV LIV COMP
389 KR.

- All-round helmet for everyday road riding performance
- Protection: Internal Structural Shell in combination with EPS
- Numen+ Link TL magnetic mount integration

MIPS BRAIN PROTECTION SYSTEM
MIPS: Protects the brain against friction during a fall

OFF-ROAD HELMETS

COVETA MIPS
769 KR.

- Off-road helmet with optimal safety
- Protection: EPS combined with a polycarbonate shell
- Numen+ Link TL magnetic mount integration and GoPro mount option

COVETA
619 KR.

- Off-road helmet with optimal safety
- Protection: EPS combined with a polycarbonate shell
- Numen+ Link TL magnetic mount integration and GoPro mount option

LUTA MIPS
459 KR.

- All-round helmet for aspiring riders
- Protection: EPS combined with a polycarbonate shell
- Numen+ Link TL magnetic mount integration

LUTA
299 KR.

- All-round helmet for aspiring riders
- Protection: EPS combined with a polycarbonate shell
- Numen+ Link TL magnetic mount integration

MIPS BRAIN PROTECTION SYSTEM
MIPS: Protects the brain against friction during a fall

EYEWEAR

VISTA KOLOR UP GRAY
389 KR.

- Comfortable elastic TR-90 material frame and temple
- Two nose-pieces for optimal fit
- With extra transparent lens

ON-ROAD FOOTWEAR

MACHA PRO

2.299 KR.

- New 100% thermoset carbon ExoBeam plate produces the lightest, stiffest plate
- ExoWrap supports every foot and arch type
- 2x Boa Powerzone

MACHA COMP

1.159 KR.

- ExoBeam nylon plate produces a light and stiff plate
- ExoWrap supports every foot and arch type
- 1x Boa Powerzone

REGALO

699 KR.

- ForceDrive nylon plate
- AirStream 4-vent cooling system
- 3 Velcro straps

OFF-ROAD FOOTWEAR
