The background is a dark, textured surface, possibly a piece of rough paper or a wall. On the left side, there is a vertical strip showing a blurred landscape with hills and a road. The word "TRAIL" is written in large, white, bold, sans-serif capital letters across the center of the dark area.

TRAIL

Endless trails, a great bike and some basic equipment - you know it doesn't need much to enjoy the beauty of nature and pleasure of riding. This is the perfect environment for **CHASER, PRIME** and **THUNDRA** models. There are fantastic trails across the whole planet, and wherever you go you are hungry to just ride them, but for you out there in the untamed wilderness there's nothing to prove. Discovery and experience – that's what count. No matter if you are on your own or with your best friends: your bike is the place to be. So, grab it! Set your compass and let your instincts be your navigator. Your next great adventure may be just around the corner!

The best performance does not have to be at odds with an innovative bike design and certainly attractive aesthetics. The **PHASE** and **NEVA** range shows how much technology has improved in recent years which allows us to access to better and more sophisticated bicycles with which to exploit our passion for riding. Moreover, children do not have an excuse either thanks to **FACTOR** and **LEADER**. Some of the best weekend plans are coupled with a Mountain Bike. Why don't you organize a ride out on the mountains with your best friends? Backpack, enough water and a lot of desire to have fun ... And it will get you in good shape! You know it will be worth it.
